Bihar - India 7903398610

OBJECTIVE

Aspiring Data Analyst / Data Scientist with 1+ year of experience in software development and strong hands-on expertise in Python, SQL, Machine Learning, and Power BI. Experienced in building predictive models, data visualization dashboards, and deploying ML applications. Seeking entry-level data-focused roles to apply analytical and problem-solving skills to real-world business challenges.

EXPERIENCE

- **Tech Mahindra**  September-2021 - September-2022
Front-End Developer Noida, India
 - Worked as a Software Developer at Tech Mahindra, contributing to application development and performance optimization. Developed strong programming, analytical, and problem-solving skills, which later supported my transition into Data Science and Machine Learning.

SKILLS

- **Programming and Scripting:** Python, SQL
- **Data Analysis and Visualization:** NumPy, Pandas, Matplotlib, Seaborn
- **Machine Learning:** Supervised ML, Unsupervised ML (Clustering, Dimensionality Reduction), Model Evaluation (MSE, RMSE, MAE)
- **Other Skills:** Statistics, Power BI, DAX, Advanced Excel

PROJECTS

- **Diabetes Prediction – Logistic Regression** 
Tools: [VSCODE and Jupiter Notebook]
 - Performed data cleaning and preprocessing on medical dataset
 - Applied feature scaling using StandardScaler
 - Built and evaluated Logistic Regression model achieving 73 percentage accuracy
 - Evaluated performance using confusion matrix and classification metrics
 - Deployed model using Flask for real-time prediction
- **COVID-19 Analytics Dashboard (Dash, Plotly, Pandas) :** 
Tools: [VSCODE and Jupiter Notebook]
 - Developed an interactive COVID-19 analytics dashboard using Dash, Plotly, and Pandas to visualize state-wise cases, recoveries, and fatalities through dynamic bar, line, and pie charts.
 - Built interactive filters and a responsive Bootstrap UI, allowing users to explore COVID-19 cases, recoveries, deaths, and resource usage (masks, sanitizers, oxygen).
- **Power BI Real Estate Dashboard** 
Tools: [Power BI Desktop]
 - Designed and developed an interactive Power BI Real Estate Dashboard visualizing key metrics such as revenue, expenses, profit, and property sales across countries.
 - Implemented data-driven insights using maps, Pareto analysis, and trend charts to identify top-performing regions and improve decision-making.

EDUCATION

- **Chandigarh Engineering College** 06 2016 - 04 2020
B.Tech IT Mohali, India
 - GPA: 7.6
- **Sec.Delhi Public School** 2014-2016
Secondary Education Gaya, India
 - Per : 64.8
- **Pragya Bharti Public School** 2000-2014
Primary Education Gaya, India
 - CGPA : 9.2

CERTIFICATIONS

- **Data Science with Generative AI Course**
